Description	Part #	Price (F)
Exhaust Spring Tool	M/P08-065	\$12.95

Extension Spring Tool

An excellent tool for every shop. Ideal for removing exhaust springs.

Description	Part #	Price (D)
Extension Spring Tool	STA20-133	\$42.95

Flywheel Puller Universal

Comes w/high quality 6mm & 8mm bolts

Description	Part #	Price (F)
Flywheel Puller	725-010	\$40.22

Timing Light

Superb timing light for 2 cycle engines. performs at high RPM where many automotive lights do not. Battery operated two "D" size batteries.

Description	Part #	Price (E)
Timing light	STA20-127	\$145.72

Digital Caliper

Description	Part #	Price (G)
Digital Caliper	SM-12036	\$114.29

Compression Tester (small)

Only 7½" long this great little high quality compression tester has the snowmobiler in mind. Comes with both 14 mm & 18 mm thread sizes. A great item for any Snowmobile, ATV, or Watercraft Shop.

Description	Part #	Price (A)
7½" Long Compression Tester	STA20-149	\$37.95

Dial Indicator Tool

Description	Part #	Price (A)
Dial Indicator	STA20-92	\$78.95

Degree Wheel

Description	Part #	Price (E)
Degree Wheel	STA20-91	\$22.95

Piston Light

This flexible Bend-A-Light is a must for all snowmobile tuners. With a high intensity bulb it is perfectly suited for reading your piston wash. Also works great for lighting hard to see areas when wrenching on your sled, atv, or watercraft.

Bend-A-Light®
"The Industry Leader"
Made in the U.S.A.

10150A 16" Bend-A-Light Pro

- High intensity flexible light bends and holds any position
- Amazing brightness for tight situations, 3/16" Diameter Bulb
- 10" Flexible brass alloy shaft
- Protective cover can also be used as an extension
- 2 AA alkaline batteries (included)

10250A 16" Micro-Pro Bend-A-Light

- High intensity flexible light bends and holds any position
- Ultra small bulb head, 1/8" Diameter
- 10" Flexible brass alloy shaft
- Protective cover can also be used as an extension
- 2 AA alkaline batteries (included)

16102 11" Mini-Pro Bend-A-Light

- High intensity flexible light bends and holds any position
- Amazing brightness for tight situations, 3/16" Diameter Bulb
- 5" Flexible brass alloy shaft
- Pocket clip acts as switch
- 2 AAA alkaline batteries (included)

10355A & 10359A 16" Bend-A-Light Pro Kit in Tray

Both Kits Include:

- 10150A Bend-A-Light Pro
- 10" Brass shaft
- Plastic handle
- Protective cover
- 2 AA alkaline batteries

12300 Illuminating pick-up magnet
12300 Hands free magnet
12500 Pocket flashlight
12600 Extension mirror (only fits #12500)
(Kit 10359A comes in a vinyl carrying pouch)

15150A 24" Krypton Pro Bend-A-Light

- High intensity flexible light bends and holds any position
- Ultra bright Krypton bulb, 3/16" diameter
- 15" Flexible brass alloy shaft
- Protective cover can also be used as an extension
- 2 AA alkaline batteries (included)

Clymer Manuals

Clymer and Intertec repair manuals offer complete repair information and are designed for both do-it-yourselfers and professional mechanics. Readers learn the skills that let them save money on maintenance and repair bills and enjoy the satisfaction of working on their own snowmobile.

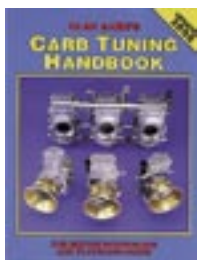

Every Clymer manual features detailed illustrations and photographs that guide the reader through each job. These titles include information covering troubleshooting, lubrication, maintenance and tune-up, engine overhaul procedures, primary and secondary clutch fundamentals and service, fuel systems, exhaust and emission control systems, electrical systems, front suspension steering, rear suspension and track, brake service and more. Complete wiring diagrams for all models are included.

Description	Part #	Price (F)

An absolute must for any clutch mechanic. This handy handbook by Olav Aaen includes theory and modification of the Comet, Arctic, Polaris, Skidoo & Yamaha. This handbook is geared to the serious racer or anyone who wants more performance from their snowmobile clutch.

Title	Part #	Price (D)
Clutch Tuning Handbook	021-101	\$34.95

"As the Snow Flies"

This Publication provides the first recorded complete history of early snowmobile development in both Canada and the United States. The time frame is from 1900 to 1960 which is the period pioneering work was done. Small recreational and utility snowmobiles, large track driven snowmobiles, as well as propeller driven snow vehicles are covered. There is a separate chapter for each company or person who produced snowmobiles on a commercial basis during the specified time period. Each chapter includes coverage of the trials and tribulations of the inventors, as well as specifications of the models being developed. Sales brochures and copies of patents are included when available. A bibliography is included at the end of each chapter. The last two chapters provide an engineering and performance analysis of the various designs, as well as a chronological history of the important events in snowmobile development.
