IN-12072 Fluid Evacuator (7.3 Liter capacity)

- Fluid Evacuator creates vacuum.
- Large capacity: 7.3 liters.
- Provides a clean, fast and simple way to evacuate a wide range of fluids.
- Includes five feet of flexible hosing and two rigid dipstick tubes for engine oil removal.
- Automatic shut off valve prevents overfilling— shuts off at 7.3 liters.
- Sturdy base with exterior pump prevents evacuator from tipping.
- No electrical or compressed air required.
- Can be used to bleed hydraulic brake systems in conjunction with brake bleeding access kit.
- Durable Polyethylene construction is impervious to automotive and household chemicals.
- Can be used to evacuate wide range of fluid types:
 - Engine Oil, Transmission Fluids, Gear Oil, Coolant, Brake Fluid, Other Fluids.

Description	Part #	Price (E)
Fluid Evacuator	IN-12072	\$94.95

Engine Location Tool

A must for every high performance shop. Save time and shop labour using this new Engine Location Tool.

Model	Part #	Price (D)

Wynn's Products

Description	Part #	Price (D)
Carburetor/Brake Cleaner – 503 g	60201	\$11.95 ea.
Engine Fogging Oil – 350 g	59801	\$9.95 ea.
Fuel Stabilizer – 325 mL	59601	\$7.95 ea.

Carburetor/Brake Cleaner: Cleans without dismantling. Helps prevent dangerous stalling and rough idling.

Engine Fogging Oil: Protect your investment with the off season fogging oil from Wynn's.

Fuel Stabilizer: Protect your investment from that long summer sit. Stabilizes fuel so you don't have to clean those carbs out in the fall.

350 mL Isopropyl 12/Case	071-350	\$2.45 ea.

Amsoil Products

Description	Part #	Price (D)
Interceptor Synthetic – 3.784 L	AMS4LT1	\$49.95 ea.
Synthetic Chaincase Oil – 355 mL	AMS16206	\$10.95 ea.
Gasoline Stabilizer – 472 mL	AMS16006	\$13.95 ea.
Synthetic Shock Oil Light #5 – 946 mL	AMSSTL01	\$16.95 ea.
HP Injector Synthetic 2-cycle – 3.784 L	AMSHP4L	\$39.95 ea.

Interceptor Synthetic 2-cycle Oil: Excellent exhaust power valve performance.

Synthetic Chaincase Oil: Provides superb cold temperature flow and high temperature stability.

Gasoline Stabilizer: Prevents fuel deterioration during storage, allowing easier start-ups. Suitable for gasoline or diesel fuel.

Shock Therapy Suspension Fluid: Light #5. Contains anti-wear agents that reduce internal wear and contains anti-foaming additives for consistent, smooth dampening. Added seal conditioners keep seals soft and increase their service life.

HP Injector Synthetic 2-cycle Oil: For top performance with DFI, EFI and carbureted fuel systems

Plexus

Plexus seals the pores in plastic surfaces with a micro-thin layer of shiny, protective wax. The plastic becomes resistant to debris, oil, scratches and eventual yellowing. Its anti-static properties repel dust and lint. It leaves no smears or smudges. Plastic makes coloured plastics vibrant, clear plastic virtually transparent and plastic paints gleaming like new.

Clymer Manuals

Clymer and Intertec repair manuals offer complete repair information and are designed for both do-it-yourselfers and professional mechanics. Readers learn the skills that let them save money on maintenance and repair bills and enjoy the satisfaction of working on their own snowmobile.

Every Clymer manual features detailed illustrations and photographs that guide the reader through each job. These titles include information covering troubleshooting, lubrication, maintenance and tune-up, engine overhaul procedures, primary and secondary clutch fundamentals and service, fuel systems, exhaust and emission control systems, electrical systems, front suspension steering, rear suspension and track, brake service and more. Complete wiring diagrams for all models are included.

Carb Tuning Handbook

A completely new and updated Carb Tuning Handbook. This book covers the basics in carb tuning, testing and racing. Mikuni's Roundslide, Flatslide, and new TMX are discussed in detail. A must for the serious rider who wants the most out of their sled. Learn how to diagnose your carb's performance, use correct testing procedures, and calibrate with the proper tools.

"As the Snow Flies"

This Publication provides the first recorded complete history of early snowmobile development in both Canada and the United States. The time frame is from 1900 to 1960 which is the period pioneering work was done. Small recreational and utility snowmobiles, large track driven snowmobiles, as well as propeller driven snow vehicles are covered. There is a separate chapter for each company or person who produced snowmobiles on a commercial basis during the specified time period. Each chapter includes coverage of the trials and tribulations of the inventors, as well as specifications of the models being developed. Sales brochures and copies of patents are included when available. A bibliography is included at the end of each chapter. The last two chapters provide an engineering and performance analysis of the various designs, as well as a chronological history of the important events in snowmobile development.
