Perfect for sport quads and small ATVs

RT15

With its versatile wire rope and strong 1,500 lb. line capacity, the RT15 is the perfect tool for sport quads and smaller ATVs. The RT15 has a three-stage planetary geartrain to ensure reliability, an efficient electrical system for less battery drain, a sealed motor that will keep the elements out, and a mechanical brake to prevent rollback. All these features mean the RT15 will pull through for you time after time. Best of all, it has legendary WARN quality, so you can be assured you're buying the best lightweight winch on the market.

XT15

The XT15 has a 1,500 lb. pulling capacity and lightweight, easy-to-handle synthetic rope, making it perfect for recovering a stuck sport quad, small ATV, or lifting a plow blade. With standard features such as a mechanical brake to prevent rollback, a 3-stage planetary geartrain for reliability, a sealed motor to keep the elements out, and a handlebar-mounted mini-rocker control switch, you can be sure you're getting a powerful, dependable winch that'll let you go prepared.

Description	Part #	Price (D)
RT15 winch	390163	\$419.95
XT15 winch	390690	\$525.95

The Warn 25 Series

The Industry Standard for ATVs

RT25

This is the winch you want when you need to pull up to 2,500 lbs. using wire rope. As the industry standard, this unit is great for pulling a heavy load or recovering a stuck ATV. Features include our patent-pending brake to hold you on steep inclines, a reliable all-metal 3-stage planetary geartrain, an efficient electrical system that allows for longer pulls with minimal battery drain, and a handlebar-mounted mini-rocker switch for great control.

XT25

You can hit the trail with confidence when you've got the premium XT25. Its lightweight, easy-to-handle synthetic rope is great for pulling an ATV out of a sticky situation, and the rope's flexibility is perfect for plow lifting. Its fast line speed means you'll be out of trouble and back on the trail in a hurry. There's no reason to worry about rollback either, thanks to our patent-pending disc brake. Full sealing protects the XT25 from the elements, and its dependable all-metal 3-stage planetary geartrain and efficient electrical system provide long, powerful pulls with less battery drain.

The All-New Warn ATV Winch Line

The Warn 30 Series

Ultimate Power to Recover the Biggest ATVs

RT30

With a mammoth 3,000 lb. pulling capacity, 50' of durable aircraft-grade wire rope, and a convenient handheld remote, the RT30 has the features you need to get the job done in the field and on the trail. No matter what the situation, the RT30's full sealing means the winch is prepared to do battle against the elements, and it's all-metal 3-stage planetary geartrain will provide countless years of smooth, reliable operation. The patent-pending brake prevents rollback and will hold your vehicle securely on inclines. A standard handheld wired remote and handlebar-mounted mini-rocker switch increases your winching options so you can get the job done right.

XT30

When you want the top-of-the-line ATV winch, you'll want the XT30. With features like our patent-pending Wireless Control System and 3,000 lb. line capacity, you'll be able to pull the biggest ATVs out of the muck from anywhere within a 50' radius. When your vehicle gets stuck, you'll be glad you have the XT30's lightweight, easy-to-handle synthetic rope, which is also great for plow lifting. Full sealing will keep the elements out and an all-metal 3-stage planetary geartrain will keep the winch running smoothly for years. And when the hills get steep, the winch's confidence-inspiring, patent-pending disc brake will hold you securely so you don't roll back.

RT30 winch (handheld remote)	390461	\$697.95
XT30 winch (wireless remote)	390464	\$828.95

The Warn 40 Series

Exceptional Performance for the Demands of UTVs

RT40

When you need a winch for your UTV, look no further than the RT40: the first winch designed specifically for UTVs. The RT40 has a massive 4,000 lb. line capacity and the longest wire rope in the WARN Powersports winch lineup so you can pull heavier loads farther. This winch has tons of standard features including a patent-pending disc brake that holds strong on inclines, a fully sealed geartrain to guard against the elements, a reliable and smooth-running all-metal 3-stage planetary geartrain, a corded remote and a mini-rocker control, and an efficient electrical system for long pulls and less battery drain.

Description	Part #	Price (D)
RT40 winch (handheld remote)	390462	\$879.95

HMF Utility Series Exhaust

The HMF Utility Series has become the most popular aftermarket exhaust system in ATV racing. Featuring a 2-inch, non-restricted core, the HMF Utility Series delivers the power, torque and quality that racers demand. Match your machine with GNCC and BAJA tested powder coated exhausts and end caps for a fully customized look. And with the best muffler packing in the industry, you can spend more time riding and less time repacking.

Add the optional quiet core insert and you will go from 102-104 dB to 96-98.

- Volumized, high performance glass wool packing
- Available as slip-on and full systems. (see select models)
- Available in Brushed or Polished Aluminum and Carbon Fiber
- Stainless steel headers and inlets
- Made in the U.S.A.

HMF Swamp Utility Series Exhaust

The first HMF Performance series designed to go "fender deep." This bulletproof, watertight design utilizes a 5" stainless steel canister for more sound absorbing volume and ultimate durability. Built for extreme condition but suitable for all public riding areas. Get stock sound levels with huge horsepower increases with the Swamp Series.

- CNC milled removable end cap
- TIG welded inlet for uncompromising durability
- Optional snorkel kit includes snorkel spigot with a welded flange
- 5" stainless steel, watertight canister

ATV Exhaust Systems for Arctic Cat & Polaris

All of our exhaust products undergo countless hours of designing, development, and testing to ensure our customers are getting the best exhaust available for their machine. We offer 3 different stages of exhaust kits. First being our slip-on systems which for the most part is just a slip-on silencer for your machine. Then we get into our full systems. Most full systems run from the engine on back to the silencer. Last but not least we offer what we call our Speed Kits. Our Speed Kits include either one of our slip-on exhaust systems or full system for units that have them available, proper jetting if needed, one of our clutch kits and a K & N air filter. All of the ingredients matched and designed to make our exhaust systems work at their full potential. Here some of the key features of our systems.

Straight-up USA Horsepower – Every exhaust product that we offer undergoes countless hours of development and testing to provide real reliable power gains. These are not full race systems made for one race. Our systems are built to last and built to work.

Light Weight – Our systems will not only add power but you will lose weight when installing our systems too. Some units lose up to 9 lbs.

Reasonable Sound Levels – Building power is one thing but building it with a reasonable sound level is a whole different deal. We test and design all of our systems to fall at or below a 96 decibel reading when tested under MN state DNR rules. All of our exhaust systems have a deeper, throatier sound than stock.

Proper Jetting – You’ve just bought your new exhaust and need to know what to do for jetting. No worries because we provide base line jetting for 0’-3000’ while riding at 60-80 degrees Fahrenheit.

Made In USA – All of our exhaust products are manufactured right here in the USA with superior quality materials and components.

Proper Fit – During our development process, we pay a lot of attention to the fit of our exhaust systems. We focus on ways to not only make more power but create more clearance so there is less of a chance for plastic to start to melt in those hot summer days.

Instructions – Most of our systems come with complete installation instructions to make install as easy as possible for the guys who want to do the install on their own at home.

Polaris Exhaust Kits

250 Trailblazer Exhaust Kit

A HUGE 7 horsepower gain over stock! It also runs at a higher RPM giving you a 4-5 MPH increase in top speed! Great low end and mid-range punch for faster acceleration. Installs easily with no modifications and includes a built in silencer for a great 2-stroke sound. For optimum performance we recommend our Hypershift clutch kit for 250 Trailblazer (see page 17).

Model	Year	Part #	Price (D)
Black Painted			
Trailblazer 250	1996-98	ATVP-250	\$419.42
Trailblazer 250	1999-06	ATVP-250-2	\$395.98
Ceramic Coated			
Trailblazer 250	1996-98	ATVP-250-CC	\$598.18
Trailblazer 250	1999-06	ATVP-250-2-CC	\$598.18

All header pipes are available painted black or ceramic coated. The ceramic coating acts as a thermal barrier to hold heat in the pipe for more consistent running and it also is very resistant to corrosion/rust plus it looks great.

250 Trailblazer Speed Kit

Imagine your little 250 pulling wheelies, accelerating harder and having 5 more MPH of top speed. That’s just what you can expect with our 250 speed kit. After you have bolted on an additional 8 HP you will wonder why you waited so long. All 250 speed kits come complete with our pipe/silencer combo for a sweet sound, complete clutch kit with installation instructions, K&N filter and jets. For ultimate performance check out our porting, 35mm carb kit and Team secondary clutch.

325 Trailboss/Magnum Exhaust Kit

This exhaust system is designed to enhance the 325’s power/torque curve. After installation you will notice a significant gain in bottom end and mid-range power, giving you better throttle response and acceleration. The 325 system has a little bark to it but it isn’t too loud. Pipe kit comes with our header pipe, one of our aluminum spark arrested silencers, all necessary mounting hardware and complete installation instructions. For optimum performance we recommend the use of our Hypershift clutch kit. (part # CK325-ATV)

400 Xplorer/350L/Xpress/Sportsman 400L Exhaust Kit

Whether you need more power for mudding, pulling or trail riding, this pipe is the ticket. An easy 10 horsepower gain will make a dramatic improvement in the performance of your workhorse. A 3-5 MPH increase in top speed is not uncommon and an add on spark arrestor is also available. (Part #79-9196) For optimum performance we recommend our Hypershift clutch kit.

400 Scrambler/Sport/Trailblazer Exhaust Kit

Like no one else in the industry, Hot Seat is proud to offer a tunable pipe! Not only will it add 10 peak horsepower, but you can adjust the length of the head pipe with shims for more bottom end or top end power. With this pipe you can easily overpower a stock 400 and leave them in the dust. Pipe fits excellent and runs either into the stock silencer or lightweight Hot Seat silencer. (Part #ATVS) For optimum performance we recommend our Hypershift clutch kit.

400 Scrambler/Sport/Trailblazer

Unleash the true potential of your 400. This kit will add serious power throughout the entire power-band, mid to top being the most noticeable. With the added 10+ HP you will have no problem sticking it to the competition. If you like doing wheelies, mudding, racing or flat out top speed running, this kit is a sure thing. Speed kit comes complete with our adjustable pipe which allows you to lengthen or shorten the pipe for more bottom or top end power, complete clutch kit with installation instructions, K & N filter, spark arrested aluminum silencer for a deeper, throatier sound and jets. For ultimate performance check out our porting, carb kits, big bore kits, reeds, etc.

400 Aluminum Silencer

Our new generation spark arrested silencer for the 400 Scrambler, Sport and Trailblazer has an all new look. Beautiful aluminum body with black endcaps not only looks good but is repackable. Our silencer weighs only 3 lbs. and has a deep throaty 2-stroke sound. No rejetting required. Just bolt it on and go!

Model	Part #	Price (D)
Scrambler / Sport / Trailblazer	ATVS	\$247.52

400 Sportsman Exhaust Kit

Countless hours of testing have gone into the development of these kits and we feel we have the best bolt-on power available. Increased bottom end and mid-range will give you more throttle response on demand. Forget about going "through" the mud hole. With these exhaust kits you'll be able to go right over the top! Pipe kits come with our header pipe, aluminum spark arrested silencer, all necessary mounting hardware and complete installation instructions. For optimum performance we recommend the use of one of our Hypershift clutch kits.

500 ATP Exhaust Kit

Make your All Terrain Pick-Up the best. We have designed an exhaust system that will enhance the bottom end and mid-range performance of your machine. You will flat out be able to tow and haul more than ever before with this system. Pipe kits come with our header pipe, aluminum spark arrested silencer, all necessary mounting hardware and complete installation instructions. For optimum performance we recommend the use of our Hypershift clutch kit. (Part #CK500-ATP)

Predator 500 Exhaust Kit

Looking for a little extra oomf out of your Predator 500/600 without having to take out a second mortgage? Then this slip-on system is the answer! Bolts and clamps directly on to the stock mounts, making installation a snap. This system will give you more power while cutting down on weight and giving you a sharp look at the same time. System is available in race or trail versions. Trail versions have a built in spark arrestor while the race versions don't have a spark arrestor and are a little louder. Slip-on systems come with all necessary mounting hardware. Some jetting changes may need to be made.

Predator HI Rev CDI

This awesome new CDI unit features higher spark energy, adjustable rev-limits, 4 timing curves (more available), tach output, tether input, launch limiter and shift kill (no clutch). This CDI offers way more features than any other on the market. Comes complete with installation and set-up instructions. For the do-it-yourself tuner or if you want to get everything out of your performance machine, we now have a programming kit available for you. You can set rev limits, timing curves, shift kill points and everything else on your new ignition box. The programming kit works on all programmable Dyna ignition systems for all types of vehicles.

Outlaw 500/600cc 41mm Keihin FCR Flatslide Carb

Bring your monster to life with the carb your big ATV should have come with instead of that stock vacuum slide carb. Bolt-on power throughout the powerband and great throttle response. Kit includes carb, jets and instructions.

Model	Part #	Price (D)
41mm Flatslide carb kit	PR41CARB	\$961.22
Choke kit	PRCK	\$34.31

500 Sportsman Exhaust Kit

Countless hours of testing have gone into the development of these kits and we feel we have the best bolt-on power available. Increased bottom end and mid-range will give you more throttle response on demand. Forget about going "through" the mud hole. With these exhaust kits you'll be able to go right over the top! Pipe kits come with our header pipe, aluminum spark arrested silencer, all necessary mounting hardware and complete installation instructions. For optimum performance we recommend the use of one of our Hypershift clutch kits.

Hypershift Clutch Kits

Our Hypershift clutch kit is one of the best values available to enhance the performance of your Polaris ATV. Each kit is designed and rigorously tested by the staff at Hot Seat to insure that it will increase your machine's acceleration, backshift and all around performance. Most kits include: primary spring, secondary spring, balanced clutch weights and a compound radius helix. All the ingredients to get your machine ahead of the competition and keep it there. When ordering, please include year of machine and other info such as porting, head work, performance pipes, tire size and other mods. Special application kits also available.

Sparky Spark Arrestor	79-9196	\$109.94

600/700 Sportsman 2003-2004

We have devoted months, days, hours and many holidays to the development of our Sportsman 600/700 exhaust system. This system will add serious torque and horsepower to your machine. Maybe it's the mud bog you've gotten yourself stuck in the last couple of trips or the drag races that your buddy won't let you live down. Either way this system will give you the upper hand. Doing wheelies won't be a question with all of the added bottom end and mid-range power. Kit comes complete with our 2 into 1 header system, proper jetting for carb models, spark arrested aluminum silencer and complete installation instructions. EFI models require no change. For optimum performance we recommend the use of one of our Hypershift clutch kits.

50/90cc Power Pipe Kit

If you want to really juice up the performance of your mini 50/90, our pipe works wonders. It's not just a little difference, it's a big difference! With the rev limiter by passed on a stock machine, our pipe added top speed with huge mid-range acceleration gains as well. Our pipe has a built-in muffler with a nice rap to it. Predator models require a new hi-rev CDI to make the pipe perform properly. Pipe kit includes clutching and jetting components for optimum performance.

ATV Muffler

- These universal ATV mufflers were designed to replace most OEM exhaust systems.
- These mufflers are manufactured of steel with baked, black paint finish.
- The internal construction and curved tailpipe makes this a very quiet muffler that is economical to the cyclist and reduces noise pollution.

Description	Part #	Price (D)
